

# JFE LION Premium Connection

Hunting Energy Services (UK) Ltd

December 2017

## 100% Compression Rated Connection for HP/HT Wells

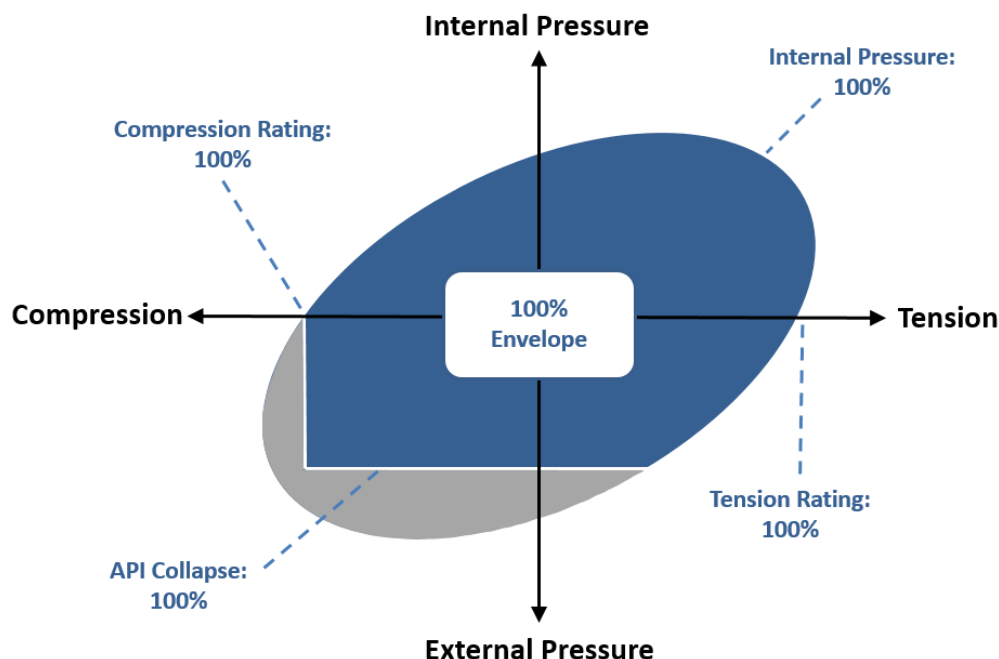

The new JFE LION premium tubular connection offers a 100% pipe body yield strength rating in tension and compression. It offers high collapse and high bending features in addition to maximum torque with sealability options. The product line is available from 2 3/8" to 14" OD.

### Testing

The bespoke product line has been tested to the ISO FDIS 13679:2011 CAL IV protocol and continues to be tested for particular customer applications and further product line enhancement.

Testing has also been performed for geothermal applications in accordance with the ISO 12835 Thermal Well Casing Connection Evaluation Program (TWCCEP).

Global running history exists for the connection and has been supplied to high profile projects around the world. The first running of the connection in the UKCS was carried out in December 2016 with a zero reject rate. Total footage and connection run was 11,000ft of 9 5/8" 53.5# L80.

### Supply

The JFE LION connection is available from Hunting Energy Services UK Ltd at competitive prices and can be supplied with the environmentally friendly Clear-Run system.
